Senior Property Research

Nexus Real Estate Advisory is seeking to hire a **senior property research** in Bangkok area. This person will be responsible for our market research across all aspects of property development, and will be also responsible for property analysis and feasibility studies. The research will be used predominantly for both internal divisions and external clients including local country and regional reports. Required qualifications are as follows;

- Bachelor's or Master's degree in related field
- 3 to 5 years of research experience; ideally within real estate industry and will have solid knowledge of research and financial analysis methods and tools
- Strong report writing skills which are essential for this type of work as reports are often published as marketing documents
- English fluency with strong communication skills
- Excellent analytical skills, including proficiency with Excel and advanced knowledge of all Microsoft Office applications

If interested, please sending your resume to e-mail: hr@nexus.co.th
